WHO WE ARE

Catalyst + Talent. Our name combines these ideas. Catalent is the global leader in development solutions and advanced drug delivery technologies, providing world-wide clinical and commercial supply capabilities for drugs, biologics and consumer health products. With over 80 years serving the industry, we have proven expertise in bringing more customer products to market faster, enhancing product performance and ensuring reliable product supply.

We serve thousands of innovators, both established and emerging, in over 80 countries, including 83 of the top 100 pharmaceutical and 38 of the top 50 biotech marketers. Our team of over 1,000 talented scientists has supported nearly half of innovative drug and biologic approvals since 2005, and we have more than 450 active development programs for new customer products. We have 20 R&D teams in 10 countries to help develop better treatments and from nearly 30 global sites, Catalent serves over 1,000 customers and supplies around 70 billion doses annually. Our significant intellectual property includes over 1,400 patents and patent applications.

Whether you are looking for a single, tailored solution or multiple answers throughout your product's lifecycle, we can improve the total value of your treatments — from discovery to market and beyond.

**Catalent. More products. Better treatments.
Reliably supplied.™**

MAJOR MARKETS

Development

With our broad range of expert services — including analytical, biologics, pre-formulation and formulation — we drive faster, more efficient development timelines and produce better products. Our innovative SMARTag™ ADC technology, combined with our proven GPEx® mammalian cell line engineering technology, accelerates large molecule drugs from discovery to clinic. All our solutions, including Optiform™ API screening and optimization, and Micron Technologies® particle size optimization, allow us to overcome even the most complex bioavailability, solubility, permeability, stability, manufacturability, or optimal release challenges.

Delivery

We are a world leader in drug delivery solutions with a proven track record of helping our customers create better treatments by boosting bioavailability, solubility, and permeability; improving ease and route of administration; and increasing patient compliance. Our unique delivery technologies — including RP Scherer softgel and OptiShell™ capsules, Zydis® fast-dissolve, controlled release, including OSDrC® OptiDose™ flexible dose delivery and OptiMelt™ hot melt extrusion, as well as inhaled and injectable dose forms — improve how products work in and for patients.

Supply

We reliably supply our customers through operational and quality excellence, and we have regulatory inspection results exceeding the industry average. As a seamless extension of your supply chain, we offer global, integrated manufacturing and packaging solutions to take your product from design to clinical trial to plant and to pharmacy. We manufacture oral, sterile and inhaled dose forms and produce biologics for pre-clinical and clinical studies.
