Company Description:

Century Packaging, Inc. was founded in 1985 and located in central New Jersey. We are a full service company that handles all aspects of custom folding carton creation for our clients. Our services cover complete spectrum of your folding carton needs; from the prototype phase to graphic layout to manufacturing and delivery of the final product. All of our cartons are custom created and manufactured according to customer specifications. Our talented and experienced staff in our Graphics and Technical Packaging Departments consults with clients to determine appropriate package configuration, die lines, artwork, electronic file preparation, and proofs. Our team's expertise and dedication ensures total satisfaction throughout the entire process.

Our reputation and recognition in the industry, our experience with a diverse variety of markets, and our equipment and manufacturing capabilities are matched by the knowledgeable and helpful team we have empowered to commit to a high level of customer service. A member of our staff will always be available to you.

Capabilities / Innovation

At Century Packaging, we are continually investing in the latest innovations in technology. We are an innovative company with state-of-the-art equipment. Our industry is constantly changing. Next generation equipment and advanced techniques allows us to offer our customers the best quality printing, cutting and gluing, as well as surprisingly quick turnaround schedules.

We have invested over 10 million dollars in the past four years in equipment upgrades. Our printing presses have the ability to coat conventionally as well as in-line UV. We offer an innovative variety of coatings from which our customers can choose; High Gloss, Matte, Soft Feel, High Rise, Reticulating, Pearlescent, etc. In addition we can print on all types of paper substrates. We have the range of ability to run 80 lb paper up to 40pt. board caliper.
