### KEY BENEFITS FOR CONVERTERS

CPS significantly streamlines the Quote to Cash Cycle by moving from Estimates to Work Orders to Invoices in seconds. Fast, simple-to-use shop floor entries and drag and drop scheduling can speed up data collection, update job cost and inventory information in real time, with better press utilization, and real-time inventory forecasting.

Structured estimating, production, shop floor control, job costing, drag and drop scheduling are fully integrated with Microsoft Dynamics GP inventory, financial, service and personnel management modules. Full users do not have to switch applications or security logins, and data is stored in the same Microsoft SQL server database.

Users can easily exchange data with other applications such as Microsoft Office, Microsoft Dynamics CRM, Salesforce, Goldmine and Act!, UPS, FedEx and Adobe. EDI/ASN/ 3PL, integrations out of the box with electronic payment, electronic credit card processing, B2B web stores and have access to more than 500 third party add-ons.

### PROVEN TRACK RECORD OF MID RANGE SUCCESS

Our installations have high usage, industry leading return on investment, very fast quote to cash cycle transaction processing and high customer satisfaction with between 25 and 100 users. Case studies and references available upon request.

### NEW FEATURES

True web client install option. Detailed prepress XML integration at a copy change level. Unlimited image and document attach capability for files and transactions. National accounts bill to consolidation. Extended pricing by product family. Seamless integration with ADP SmartCompliance—platform and ADP Procure to Pay Solutions®.

### NEW SALESPAD SALES ENTRY ON APPLE/ANDROID

Secure/safe remote data entry and enquiries from smartphones and touch pads running Apple and Android.

### NEW CLOUD BASED PAY BY THE MONTH OPTION

Pay for Dynamics GP, CPS Print Management, Dynamics CRM and MS Office by the user by the month with a much smaller up front cost. Access the entire application by secure HTTPS/SSL encryption.

### NEW FULL USER AND LIGHT USER

Purchase full users up front and get access to all modules. Combine with low cost shop floor users. Use zero percent financing over twelve months for the lowest possible total cost of ownership.

### INVESTMENT PROTECTION

In partnership with Microsoft we offer a product roadmap extending out to at least 2027. Microsoft and CPS have made the commitment to offer an upgrade path that will not require users to repurchase functionality as long as users stay on a software maintenance plan. CPS also offers a source code escrow program. Detailed investment protection information available upon request.

### PARTNERSHIPS
