## WHO WE ARE

Dec is a leading global provider of powder handling, containment and micronizing systems. Our turnkey and custom designed solutions have been successfully integrated into complex operations in hundreds of companies worldwide, both multi-nationals and specialists. Dec products are of the highest quality. The options are infinite to suit the requirements of a diverse customer base. All systems are modular to ensure simple integration into existing processes.

Over the years we have enhanced our global presence by opening subsidiaries throughout Europe, America and Asia, creating a genuinely global organization providing full local support. An additional 25 agency network promotes and supports Dec products worldwide. In 2008 we acquired the Jetpharma product range, which includes world beating micronization and containment systems.

We are established experts — innovators with an unparalleled depth of knowledge. Our products frequently challenge convention, but always provide unique, effective solutions for forward thinking organizations.
