### About Us:

Diamond Wipes International is a Southern California-based wet wipe manufacturer and contract filler. As the company celebrates the 20th year of operation, the commitment remains strong to produce quality products in the USA. The company manufactures in the combined 200,000 sq ft plants in Chino, California and Bucyrus, Ohio. FDA and EPA registered. FSC® and Rainforest Alliance® certified. Registered to handle and process USDA certified organic products. EPA Green Power Partner. WBENC, WOSB & NMSDC certified woman and minority owned small business enterprise. Diamond Wipes currently services some of the top global beauty companies and national mass/drug retailers.

### Popular Categories:

- Personal Hygiene
- Baby Care
- Medicated OTC

### Hero Products:

- Makeup Remover Wipes
- Nail Polish Remover Pads
- Personal Cleansing Wipes
- Acne Treatment Pads
- Facial Treatment Cloth Masks
- Promotional Size Filler Packets

### Specialized Services:

Diamond Wipes specializes in contract manufacturing and private label of wet wipes. Most popular packaging types include individually sealed packets and resealable flexible pouches. Contract filling of unit dose sachets is also a popular service among the beauty customers. In addition, the company offers a spout pouch contract filling solution to the US health and beauty market. These unique pouches make perfect vehicles for sampling or retailing cosmetic and personal care products with a variety of content types, including liquid, cream, lotion, or gel.

Complemented by excellent customer service, R&D, secondary assembly and more, the company provides a complete turn-key solution to beauty brand owners and marketers.

### What's New for 2014:

As part of its continued commitment to improved sustainability, FSC and Rainforest Alliance certified Diamond Wipes will be offering 100% of its popular compostable rayon wipe substrates as FSC-certified materials.

In addition, the company will be introducing plastic canister containers manufactured with a minimum of 25% post consumer recycled materials.
