Company Description

Federal Equipment Company, with more than 50 years of experience, is the trusted name in the processing equipment industry and a top supplier of used pharmaceutical equipment. Federal Equipment provides quality used equipment, outstanding service, and competitive prices that meet the needs of the solid dose, sterile, API, and related pharmaceutical process industries. Federal Equipment also offers a complete array of specialized services that include the liquidation and auction of process lines and manufacturing facilities, equipment appraisals, maintenance, warehousing, procurement, rigging, testing, auction services, and more. Federal Equipment maintains thousands of pieces of equipment in stock and ready to ship.

Major Markets

Major markets in the pharmaceutical industry including pharmaceutical, biopharmaceutical and API manufacturers, including solid dose, liquids, powders, aseptic filling, packaging, and more.

Specialized Services

Federal Equipment helps organizations manage surplus equipment by providing consultation on the negotiated liquidation of assets. Federal Equipment's strength is its extensive staff of sales, maintenance, rigging, and appraisal specialists, who can efficiently execute your asset management plan. Federal Equipment purchases single units, complete process lines, and entire manufacturing plants. Our substantial buying power and market knowledge allow us to pay top dollar for used equipment, resell it quickly, and perform all the rigging, dismantlement, and transportation functions. Our well-established buying process allows users to manage their surplus equipment for increased cash flow and an enhanced bottom line.
