

NDC, founded in the year 1998 in Quanzhou City---one of top economic active regions in China. As a pioneer in the manufacture of Hot Melt Application Systems in Asia, NDC has won favorable reception from customers for high quality, good service, strong manufacturing capabilities and strict management systems.

NDC has been devoted to R&D and manufacture of Hot Melt Tank and Coating Lamination Machine for more than a decade. The company is renowned for its one-stop complete lines and professional application expertise in Asia.

In order to improve working efficiency and product quality & precision, NDC bought state-of-the-art computer numerical control machines (Japan Mori Seiki, Mazak, Tsugami, Germany DMG Turn & Mill Complex CNC Machine and Horizontal CNC Machine, etc.) to replace those traditional processing machines. Now most of parts are available to be automatically finished in one time.

NDC constructed a well-appointed laboratory, which is equipped with all kinds of spray and coating systems for diversified applications and complete inspection facilities. All of the above allow the company to conduct various testing and trial for customers, and R&D for new products and technology.

NDC hot melt spray coating system are widely used in: personal care, building & roofing materials, packaging, label stock & tag, medical-use material, etc. No matter nonwoven lamination or paper converting, NDC can always offer you professional & innovative solutions to satisfy different production lines.

NDC has provided equipment and service in more than 30 countries, including some of the leading corporations and other promising enterprises, and has earned a good reputation. All products have obtained CE Certificate and ISO9001-2008 Approval.

NDC, Your Best Partner!
