Company Description

Since 1932, National Enzyme Company has been the leader in nutritional enzyme technology. From research and development to marketing support, NEC provides manufacturers and distributors worldwide with comprehensive dietary supplement services. Utilizing current technology in production equipment, NEC proficiently completes all customer requests, including unique product development, precision blending, encapsulating, full-service bottling and labeling, while adhering to strict NSF and TGA certified GMPs. NEC's primary focus is in product formulation and development, creating strong, marketable products that affect the nutritional industry in a positive and progressive manner.
