Website: [www.shamrocktechnologies.com](http://www.shamrocktechnologies.com)

### COMPANY DESCRIPTION:

Founded in 1945, Shamrock is one of the world's leading manufacturers and suppliers of a broad line of micronized wax and coating additive products including: UV, water and oil dispersions; PTFE compounds; emulsions; texturing materials; and nanoFLON materials. Using our dedicated technology, customized production equipment, and with our application and R&D labs, Shamrock is continuously creating innovative products to help our customers grow competitively. All Shamrock's manufacturing facilities are ISO 9001:2000 certified.

### TECHNICAL MISSION:

Shamrock's dedicated application laboratory in its Newark, NJ, facility works to provide creative solutions to the most challenging customer needs. But the key ingredient is a group of industry-experienced professionals focused solely on offering technical assistance to customers. Shamrock's Product Technical Center (PTC), available at 973-242-2999 Ext. 4, is fully staffed, services all major applications, and prides itself on its enviable record of prompt responses to questions from customers and formulators.

### COMMITMENT TO SERVICE:

Shamrock maintains an international sales network to ensure each customer receives optimal attention, support and service. But our customer service groups work on a whole variety of details like scheduling, normal and special deliveries, warehousing, and others, that can really make a difference for customers worldwide.

### PRODUCT LINES:

- *SST Series*: full range of micronized PTFE products
- *Fluoro AQ Series*: ultra-fine PTFE water suspensions
- *S Series*: wide variety of micronized waxes and alloys
- *Texture Series*: texturing agents for all liquid coatings
- *PowderTex Series*: texturing agents for powder coatings
- *EverGlide & Ultraglide*: wax and PTFE emulsions & dispersions in UV monomer
- *Hydrocer Series*: pre-dispersed and emulsified additives for water-based systems
- *VersaFlow EV*: liquid PE surfactant for solvent-based coatings
- *FluoroSlip Series*: micronized PTFE/wax blends for optimal slip and abrasion resistance
- *Neptune Series*: micronized PTFE and waxes for water based systems
- *NanoFLON Series*: sub-micron PTFE powders

### GLOBAL CAPABILITIES:

*U.S. Production Facilities:*  
Shamrock Technologies, Inc.  
109 North McKinley Street  
and  
301 Community Drive  
Henderson, KY 42420
