Web: www.versopaper.com

Verso Paper Corp. is a leading North American manufacturer of printing and specialty papers. Headquartered in Memphis, Tennessee, Verso owns paper mills in Maine and Michigan. Our portfolio includes coated, specialty and uncoated papers. These papers are used in commercial printing applications, magazines, catalogs, books, inserts, direct mail, and in specialty applications including labels, release liners, pharmaceutical inserts, financial papers, and flexible packaging.

Verso's mills have a strong manufacturing focus on producing consistent, quality products, and our Aspect® line is no exception. Located within close proximity of major printers and converters and with convenient, cost-effective access to northern softwood fiber, Verso enjoys an overall pulp long position and is well positioned with regards to energy infrastructure.

### ASPECT® LABEL AND RELEASE PAPER PRODUCT LINE

Verso leverages generations of paper making expertise to deliver our specialty paper solutions. With bright white label sheets that are stable, smooth and strong, and consistent SCK release base sheets that possess excellent hold-out properties, Verso's Aspect® line of label and release papers delivers outstanding quality and exceptional performance.

#### ASPECT® C1S PS FACE SHEET

Verso's Aspect® C1S PS Face Sheet is a high brightness, high gloss, single-side coated freesheet paper designed to meet the stringent requirements of pressure sensitive label customers. Its smoothness and optical properties are designed to yield clean, crisp printed images. This sheet has excellent functional performance through lamination, converting, printing and application.

#### ASPECT® EDP FACE SHEET

Aspect® EDP Face Sheet is an uncoated, high brightness, surface-sized freesheet paper suitable for impact and non-impact printing. It possesses an appealing combination of brightness and shade, resulting in enhanced bar code and human readable printing. Aspect® EDP Face Sheet's physical properties provide the dimensional stability and strength required in the pressure-sensitive label converting process.

### ASPECT® SCK RELEASE PAPER

Aspect® SCK Release Paper is a high performing, extremely efficient and cost effective liner, with potential for lower silicone coat weight and reduced adhesive usage due to better, more consistent profiles. Aspect® SCK Release Paper possesses high strength, superb apparent density and low opacity. It provides exceptional die-cutting performance, excellent cure and holdout and smooth surface characteristics.

### ASPECT® C1S C/S LABEL

Aspect® C1S C/S Label is a high brightness, high gloss, single-side coated freesheet paper. Aspect® C1S C/S Label's surface characteristics deliver appealing aesthetics and its physical properties provide a sheet that converts well in cut and stack label applications, with good dimensional stability throughout the process.

If you have any questions about our Aspect® line of label and release papers, please email us at [specialtypapers@versopaper.com](mailto:specialtypapers@versopaper.com) or call 800-258-8852. We look forward to the opportunity to introduce you to our Aspect® product line.
