Company Description:

For over two decades ABA Packaging Corporation has been servicing the needs of the cosmetic packaging industry. From the newest startup companies that need only a thousand pieces to the major cosmetic manufacturers that need millions, we make the same caring effort to satisfy your every need. ABA Packaging views our customers not only as customers, but also as business partners. We feel that if you do well with your product, then we also do well. We have more than 100 years of knowledge in the packaging industry and are happy to help you with any and all your packaging needs.

ABA is one of the fastest growing suppliers of stock cosmetic bottles, jars, sampler vials, pumps and caps of all sizes and colors. In addition to the items that appear in our catalog, we can also help you design and produce your own private design. Because we are a complete packaging company, all of our components can be customized through such services as acid etching, ceramic decorating, metalizing and hot stamping. And if it's something we don't do, we will be happy to refer you to a quality company that will fill that special need. We are here to serve you and make your products look their best.
