WHO WE ARE

Our goal is excellence in everything we do!

Judson A. Smith Company, an ISO 13485:2003 certified company, provides highly specialized tube fabrication and machined component manufacturing. At the Judson A. Smith Company we believe that quality is a measurable component in every product and service we provide. Our role is to understand the capabilities of our suppliers and employees, and use these collective talents to meet your needs...*OUR CUSTOMER.*

MAJOR MARKETS

Industries served include Medical, Aerospace, Automotive, Electronics and many more where specialized capabilities, including the ability to hold extremely tight tolerances are critical.

SERVICES OFFERED

For over 50 years, the Judson A. Smith Company has manufactured precision, custom tubular parts and machined components to rigid specifications. Capabilities include laser cutting and welding, expanding, flaring, milling and turning, wire EDM and more. Materials used include Stainless Steels, Titanium, Aluminum Alloys, Copper Alloys, Brass Alloys, Nickel Alloys, Precious Metal, Plastics and more.

Quality is built into our process to assure customer confidence. Our in process controls and inspection are part of our daily routine. We are ISO 13485:2003 and ISO 9001:2008 certified.

In order to meet the requirements of our customers, Judson A. Smith Company has successfully developed a unique capability that blends prototype engineering together with short and long run production expertise. We are geared to providing exceptionally fast turn around times on prototypes, and then, upon approval, quickly transitioning into full scale production.

Our fast response time is due to our state of the art manufacturing technologies coupled advanced equipment and enables us to exceed customer expectations in a timely fashion.
